

Bring your Lighting Ideas to Life with our 3D Production services

3DconceptMADA is a French company founded in 2022, in partnership with a Lighting Design Office based in Antananarivo, Madagascar.

Our team of experienced technicians boasts over 12 years of expertise in the lighting industry. Project coordination and oversight are managed by Emmanuelle Piat, the founder of 3DconceptMADA, whose office is located in the Paris region.

Customer satisfaction is at the heart of everything we do. Our commitment to responsiveness, availability, quality communication, and exceptional studies has earned us a strong reputation in the industry.

Currently, one-third of our business comes directly from client referrals, a testament to the trust and satisfaction we have built with our partners.
